

UP TO TELEPHONE COMPANY TO GET MORE OPERATORS

Chamber of Commerce Intends to Ask for Reduction of Rates If Service Is Not Remedied in Sixty Days.

It should especially be borne in mind that the telephone is a public utility and that the telephone company is a public corporation. The Chamber of Commerce is not asking for a reduction of rates until the service is improved. It is asking for a reduction of rates only if the service is not improved within sixty days.

The stamp of formal approval by the directors of the Chamber of Commerce has been placed on the bill of indictment against the service of the Cumberland Telephone and Telegraph company, returned by W. P. Armstrong, chairman of the committee of the chamber, who investigated the service pursuant to the request of W. H. Fitzhugh, president of the chamber, made on Dec. 3.

This means that all the powers of the Chamber of Commerce are to be exerted to the enforcement of the demand that service be corrected to the adequate point of efficiency previously promised.

Proceedings will be entered with the state public utilities commission asking the commission to force a proper standard of service and require the company to maintain such a standard, with the alternative of a reduction of rates in the event the standard of service is not maintained.

The report of the law committee was considered by the directors of the chamber Friday afternoon, following its presentation to them by Mr. Fitzhugh. The official text of the report contained a statement that the same matter relative to the weakness of the telephone service and methods of correction previously published by The News-Scimitar, in sum, it was this:

The present telephone service is greatly inadequate and inefficient. The cause of this inadequate and inefficient service is the lack of a sufficient force of properly trained operators.

Idea within the power of the company to remedy this service within a reasonable time. The report of this committee is being forwarded to the local manager of the Cumberland Telephone and Telegraph company, and that the company be given 60 days within which to attempt to bring the service to a proper standard. It will make weekly reports of its progress and the committee will continue to test and inspect to be made at the end of that period by an expert, to be selected by the Chamber of Commerce.

That in the event the company will not agree to this or in the event the satisfactory improvement is not shown at the end of the 60-day period, we recommend that the committee of the chamber, the railroad and public utilities commission of the state of Tennessee, pray for a proper standard of service to be fixed and an order entered requiring the company to maintain this standard of service, or in the alternative the rates be reduced.

Deals Fairly.

The investigating commission expressed its opinion that the rates of the telephone company were fair and that the company was dealing fairly and conservatively with the telephone service.

The committee of the chamber, the railroad and public utilities commission of the state of Tennessee, pray for a proper standard of service to be fixed and an order entered requiring the company to maintain this standard of service, or in the alternative the rates be reduced.

Freight Situation Is Improving

The acute car shortage at Memphis, which compelled the Illinois Central and Frisco railroads to close their local freight depots Friday afternoon, showed signs of improvement today.

The Frisco local office was open all day Saturday and the Illinois Central expected to have its freight depot open Monday.

Embargoes on nearly all the eastern lines, except the Illinois Central and Frisco, however, added to the local situation of the local freight situation.

All local freight trains to the St. Louis and East St. Louis terminals and the East and West St. Louis terminals are still operating trains to the East, which provided a route for Memphis cotton products to Eastern destinations.

The Baltimore and Ohio and the Chesapeake & Ohio railroads were still operating trains to the East, which provided a route for Memphis cotton products to Eastern destinations.

The local freight situation was still operating trains to the East, which provided a route for Memphis cotton products to Eastern destinations.

"Honest John" Brunen Boss Of Doris Show Swells Saint Fund

Further to swell the fund which is being raised for the widow of the late Police Officer Guy Saint by friends who know and admire Saint in life, "Honest John" Brunen, boss of the Doris Show, is contributing \$100 to the fund.

One member of the gang fired at Saint as the officer, unaware of his presence, stepped into view at the corner of the store.

The bullet from the negro's gun struck Saint under the right collarbone and tore through to his spinal column, where it lodged, producing paralysis from midchest down. Although he struggled gamely for life, the wound proved fatal next day.

Guy Saint left only \$1,000 insurance to his widow and of that sum \$400 was used to bury him. That left \$600 for the widow, Mrs. Mary Saint.

The fund today stands: Previously acknowledged \$201.00 "Honest John" Brunen 100.00 Total \$301.00

Col. Berry, at Nashville, Says There Is Nothing in Rumor.

NASHVILLE, Tenn., Jan. 24. (Sp.)—Word to the effect that an all-States ticket of Col. Luke Lea for the 1920 election at Nashville, Tenn., had been sold to a man named Robert W. Berry for governor and Capt. Will R. Manier, Jr., for congressman from the Sixth district, was made today by both Col. Berry and Capt. Manier.

Col. Berry, for governor and Capt. Manier, Jr., for congressman from the Sixth district, was made today by both Col. Berry and Capt. Manier.

THOUSANDS OF HIGH PRICES BIG SNAKE

Old N. Y. Litigation Over Big Estate Used to Get Coin From Many.

NEW YORK, Jan. 24.—Search for windfalls who are trying to convince thousands of persons throughout the country that they have inherited most of the land in New York's financial district was begun today by the police.

In a revival of a swindle which netted its promoters nearly \$1,000,000 20 years ago, letters have been circulated advising the recipients that they are heirs of Anneke Jans, and that her estate, consisting of the sites of the Woolworth building, Trinity church and most of Wall street, is to be divided soon.

A contribution for legal expenses is asked. Jewels and money valued at millions belonging to the estate have just been discovered in a vault in this city, the letters state. As a proof, there are enclosed what appear to be newspaper clippings.

INFLUENZA FEAR CAUSES RASTIC ORDERS

All public assemblages are prohibited under a sweeping order issued by Mayor Paine Saturday morning.

The order includes the closing of all public and private schools, theaters and other places of amusement, and a request to the ministers of the city to suspend their services until further notice.

The first order was issued late Friday afternoon as a precautionary measure to prevent any spread of the flu to epidemic proportions. It was amplified Saturday morning, after Mayor Paine had conferred with Dr. J. L. Andrews, head of the health department. Upon Dr. Andrews' suggestion the courts all recessed for next week.

Dr. Andrews conferred with the mayor Friday morning. Later he received reports from 30 of the city's physicians in Memphis that he had 156 cases of flu either well defined or suspected in his charge. The physicians stated that there was every indication that the disease would spread rapidly unless measures were promptly taken to prevent crowded conditions.

Following publication of the order, the members of the Theatrical Managers' association notified the mayor that they would observe the order. The order was made known to the mayor by the Memphis conference, for the Methodist pastors, as the mayor said, the churches will be closed Sunday. Ministers of other Protestant denominations sent in similar reports after their meeting at the city hall.

Other schools showed an increase in the number of cases at Oden and Utah City, Utah; 152 new cases in Wyoming, 89 cases and 10 deaths at San Francisco, 242 additional cases in Connecticut, a large number of so-called grippe postmortems, 117 cases at Richmond, Va.; increase in Oklahoma, and a few scattered cases throughout Wisconsin.

GIVES BLOOD TO STOP PROFITEERING

When persons who hoped to profiteer at the expense of sufferers dying for lack of blood asked \$25 for transfusion of blood from those who were sick, Miss Lillian Jedlicka, nurse at the Flower hospital, New York, became incensed at them and offered to give her blood for nothing. Her offer was accepted and her voluntary act caused other nurses to follow her example. As a result, the would-be profiteers cannot now collect the \$25 they formerly charged.
